

5-Year Yield & Appreciation Study

Beato Urban Collection — Lisbon

This independent financial projection analyses the combined effect of operational short-term rental income and capital appreciation over a 5-year investment horizon for a Beato Urban Collection apartment acquired at €280,000. The analysis combines realistic Lisbon short-term rental market assumptions with projected urban appreciation trends for the Beato district.

Key Assumptions

- Purchase Price: €280,000
- Professional STR Management Fee: 21%
- Net Annual Yield Target: 10.38% (professional scenario)
- Estimated Annual Net Cashflow: €29,066
- Estimated Capital Appreciation: 6%–8% annually
- Projection Horizon: 5 years

1. Rental Yield Performance Over 5 Years

Year	Net Annual Income	Cumulative Rental Income
Year 1	€29,066	€29,066
Year 2	€29,066	€58,132
Year 3	€29,066	€87,198
Year 4	€29,066	€116,264
Year 5	€29,066	€145,330

2. Property Appreciation Projection

The Beato district is widely considered one of Lisbon’s strongest medium-term appreciation zones due to infrastructure upgrades, urban regeneration, increasing international demand, and limited supply of modern inventory. This study models a moderate appreciation scenario of approximately 7% annually.

Year	Projected Property Value	Capital Gain
Purchase	€280,000	-
Year 1	€299,600	€19,600
Year 2	€320,572	€40,572

Year 3	€343,012	€63,012
Year 4	€367,023	€87,023
Year 5	€392,715	€112,715

3. Combined Investor Return Over 5 Years

Metric	Value
Total Net Rental Income	€145,330
Estimated Capital Appreciation	€112,715
Total Estimated Profit	€258,045
Projected Property Value (Year 5)	€392,715
Total Return on Initial Investment	92.16%

Projected Combined Return After 5 Years:

Rental Cashflow + Capital Appreciation = approximately **92% total return** over the investment horizon.

Conclusion

Under realistic Lisbon hospitality market conditions and moderate appreciation assumptions, the Beato Urban Collection presents a strong dual-return investment profile combining: • recurring operational cashflow through short-term rentals

• long-term equity growth through capital appreciation This positioning makes the asset comparable not only to traditional residential real estate, but also to professionally managed hospitality and income-producing urban assets.
