SMITH & ADAMS

GROUP

Property investment made easy.

An independent real estate group providing end-to-end solutions for foreign investors in Portugal.

WHO WE ARE

Owning property, without the work of owning property.

Smith & Adams began as the answer to a problem we had ourselves: a portfolio of properties, rental commitments to honour and no one on the ground able to run them to the standard they needed. So we ran them ourselves, and learned the market from the inside.

That is the position most foreign investors are in. You do not know the local market, the builders who charge a fair price, or how an asset is run once the keys change hands. We are the partner on the ground: experts in every field you need, from the first analysis to long-term ownership, including residency and citizenship in Portugal.

We also own and operate our own brands, Hygge Kaffe and Hygge Residences, so the standard we advise on is the one we hold ourselves to every day.

HOW WE CAN HELP

Three steps, one team.

STEP ONE

Understand your needs

An initial consultation about what you want the asset to do: income, growth, residency, a home, or all of them.

STEP TWO

Find the solution

Independent advice on the options that fit, with no upfront cost and no obligation to proceed.

STEP THREE

Execution

We carry it through, then run the asset for profit, efficiency and use, and report on it.
